Dear State Representatives and Senators,

Please help push HB 4916

As you know, the intent of the bill is to allow local units of government to pass a resolution to permit charitable fundraising on roads within their jurisdiction. This issue was brought to our attention when one of our council members was informed by MDOT that solicitation in public right of way was illegal. As Sebewaing Village president, I would like your support with this sensitive matter for our veterans. They have fought and died for this country and made the ultimate sacrifices. Also, for charitable organizations like Lion Clubs; that are dedicated to enhancing the quality of life for all people who are blind and visually impaired. Organizations like the Lion Club, are providing opportunities for these individuals for greater independence. I would appreciate if you would consider to bring this bill to a vote as soon as possible.

Sincerely,

Sami Khoury  
Sebewaing Village President
